We are taking care of your:

- Boiler service, replacements and new installation
- Hot water cylinder service, replacements and new installation
- Thermal solar service, replacements and new installation
- All types of underfloor heating, maintenance and flushing
- Water softener replacement (maintenance free UK products)
- Bathroom refurbishing
- Repairs on sanitary ware (well experienced on German products)
- Complete new installations, bathrooms, underfloor heating and boiler for extensions, basements or loft conversions
- Whole house booster pump installation
- Rain water pump system for garden use and toilet flushing
- Heat pump installation (ground or air source) to replace an existing gas boiler or new installation
- General service on toilet flushes, shower waste, shower flexi hoses and more
- Outdoor shower for pool use
- Heat pump pool heating

And from September we will be HETAS approved installers for wood stoves, flue liner and external stainless steel chimneys.
